VETERINARY DEPARTMENT. To make THE TRIBUNE still more valuable to its agricultural reasers, we have engaged P.of James Law, Veterinary Surgeon in Cornell University, to answer questions concerning diseases of Cattle, Horses, Sheep, and other domestic animals, and to prescribe remedles. Answers and prescriptions will be given only through the columns of THE TRIBUNE. We are sure that the new feature in THE TRIBUNE will add largely to its readers, as all the owners of animals are liable to need the information profered. Inquiries should be made as brief as possible, that the questions, ans-swers, and prescriptions may be published together. In short, we intend that Title TRIBUNE shall be p in advance in all that concerns the Agriculturral, Manufacturing, Mining, and other interests of the country, and that for variety and completeness, it sha'l remain altogether the most valual e-interesting, and instructive NEWSPAPER published in the world.

published in the world.

It has been well observed that a careful reading and a udy of the Farmers' Club Reports in THE TRIBUNE alone will save a farmer hundreds of dollars in his crop. In addition to these reports, we shall continue to print the best things written on the subject of agriculture by American and foreign writers, and shall increase these features from year to year. As it is, no pradent farmer can do without it. As a lesson to his workmen alone, every farmer should place THE WEKKLY THIBUNE upon his table every Saturday evening. should place THE WEERLY TRIBUNE upon his table every Saturday evening.

THE TRIBUNE is the best and cheopest paper in the country. This is not unid in a spirit of boastfulness. It has failen to New York to create the greatest newspapers of the country. Here concentrate the commerce, the manufactures, the mineral resources. merce, the manufactures, the mineral resources, the agricultural wealth of the Republic. Here all the news gather, and the patronage is so large that journalists can afford to print it. This is the strength of THE TRIBUNE. We print the cheapest, and best edited weekly newspaper in the country. We have all the advantages around us. We have great Daily and Semi-Wackly edition. All the claborare and intricate machinery of our establishment—perhaps the most complete in America—is perhaps the most complete in America devoted to the purpose of making THE WEEKLY TRIBUNE the best and cheapest newspaper in the world. The result is that we have so sytematized and expanded our

we have so sylematized and expanded our resources that every copy of THE WEEKLY TRIBUNE contains as much matter as a duodecimo volume. Think of it! For two dollars the subscriber to THE TRIBUNE for oas year buys as much reading matter as though he filled a shelf of his library with fifty volumes, containing the greatest works in the language. The furce of cheapness can no further so. can no further go.
THE WEEKLY TRIBUNE is the paper of the people. Here the eager stude t may learn the last lessons of science. Here the scholar may read reviews of the best books.

Here may be found correspondence from "Il parts of the world, the observations of ancere and gifted men, who serve THE TRIBUNE in almost every country.

THE TRIBUNE is strong by reason of its enormous circulation and great cheapness. It has long been conceded that THE WEEKLY TRIBUNE has the largest circulation of any newspaper in the country.

For years we have printed twice as many.

papers, perhaps, as all of the other weekly editions of the city dailies combined. This is why we are enabled to do our work so is why we are coabied to do our work so thoroughly and cheaply. The larger our circulation, the better paper we can make. What are the practical suggestions? Many. Let every subscriber renew his subscribe, and urge his neighbors to do the same. If a man cannot afford to pay two dollars, let him raise a clab, by inducing his neighbors to subscribe, and we send him a copy gratis for his trouble. No newspaper so large and complete as THE WEEKLY TRIBUNE was ever before offered at so low a pri Even when ou currency was at a pri Even when ou currency was a par with gold, no such paper but The Tax

BUNK was offered at that price; and THE TRIBUNK then cost us far less than it now does. We have solved the problem of making the best and cheapest newspaper in America.
